

The Story of A Thousand: A History of the 105th Ohio Volunteer Infantry (Civil War in the North)

This facsimile edition of Albion W. Tourgees regimental history of the 105th Ohio Volunteer Infantry was first published in 1896. Tourgee, a lawyer and outspoken abolitionist from Williamsfield, Ohio, is best known for his semi-fictional novels about the reconstruction of the South following the Civil War, *A Fools Errand* and *Bricks Without Straw*. Both critically acclaimed best sellers, the novels catapulted Tourgee and his relentless efforts to secure equality for African Americans into the national spotlight. *The Story of a Thousand* also received a warm reception upon its publication, although it never achieved the level of recognition as his other works. Written at the behest of his former comrades in the 105th Ohio, *The Story of a Thousand* draws on Tourgees own wartime papers, as well as diaries, letters, and recollections of other veterans, to detail the remarkable story of the regiment during its campaigns in Tennessee, Kentucky, Georgia, and Shermans March to the Sea. Tourgee concentrates on the lives and experiences of the enlisted soldiers, describing the backgrounds of the men and how they rallied around the Union flag as citizen soldiers and also on discussions about the role of slavery as the impetus of the war. Tourgees concern for the common soldier prefigures the scholarship of twentieth-century historians, such as Bell Irvin Wiley, who devoted attention to the men in the ranks rather than the generals and politicians in charge. Historian Peter Luebke revives Albion W. Tourgees lost testimony of the war in this new edition of *The Story of a Thousand*. He includes an index and a scholarly introduction that draws on extensive research to describe the writing, production, and reception of the book. Luebke also places the work in the context of recent Civil War scholarship. The inclusion of famed illustrator Frederic Remingtons engravings, which

accompanied the books excerpts appearing in The Cosmopolitan magazine in 1894 and 1895, also enhances the text. Scholars, students, and enthusiasts of the Civil War and Ohio history are sure to enjoy this military account by one of Reconstructions harshest and most articulate critics.
