

Blown Away: Lost From the Storm (The Road to Reinvention Book 2)

When you experience a natural disaster all you can think about at that moment is your survival. It is in the aftermath, that you realize all of the hopes and dreams that you have been working so hard for may have just been swept away by the wind. This is the second book from my series, The Road to Reinvention. Read the emotional true account of what I experienced during and after this terrifying event.
