

## The Republic of Cuba: Four Books of Facts Published for the Benefit of Those Who Desire Reliable Information as to Existing Conditions in This Interesting Island (Classic Reprint)

Excerpt from The Republic of Cuba: Four Books of Facts Published for the Benefit of Those Who Desire Reliable Information as to Existing Conditions in This Interesting Island These four small volumes including The Republic of Cuba, Industrial Cuba, Agricultural Cuba, and Cuban investments, form an attempt to put in findable shape many of those facts so often sought for, unsuccessfully, regarding one of the most interesting lands adjacent to the United States. Much time, research and considerable money have been expended in the compilation of facts herein contained and we would be derelict in duty failing to publicly recognize the many who have assisted, directly and by reference, in supplying the information presented. Mr. George Reno, Chief of Bureau of Information, Department of Agriculture, Commerce and Labor of Cuba; Mr. George Bradt, of The Havana Post; Mr. Edward F. O'Brien of the Times of Cuba and members of the Advertising Club of Cuba have materially assisted in this respect. The works of Gral. Dr. Manuel F. Alfonso and T. Valero Martinez, and H. A. Himely, also the writings of Robert Wiles, Mulhall, and Willett & Gray have supplied much valuable information in the preparation of this work. If it but serves to increase the interest of those who heretofore have known little of the Cuban Republic we will feel that our efforts have been well expended.
