

Slavery+Religion=Extinction in Slow Motion

The book shows how the ignorant and vulnerable state left as a result of slavery enables the delusion of Belief to dominate the minds of the slaves descendants, which results in the following:- 1. A willingness to embrace the transfer of slavery from body to mind. 2. A mystical rather than an objective perception of reality contributing to a lack of interest in technological development. 3.

A lack of deep appreciation for present life and having more of an appreciation of an afterlife all of which constitutes a recipe for extinction.
