

Philosophy in Play: Three Dialogues

Translated by the author from his *Tre Dialoghi*, published in 1989 by Bollati Boringhieri Editore. In this lively collection of dialogues, Bencivenga endeavors to be true to the nature of philosophical practice- its constant superseding of its own results, its open-endedness, its paradoxical turning of a position into its opposite- as he explores issues ranging from feminism to metaphysics, from the philosophy of science to aesthetics, as well as the intrinsically dialogic nature of philosophical activity itself.
