

The New Entrepreneurs: Building a Green Economy for the Future

In *The New Entrepreneurs*, author and venture capitalist Andrew Heintzman introduces us to a burgeoning class of entrepreneurs who are at the forefront of the green-tech economy. From forestry to water to agriculture and oil, Heintzman maps out the leading enterprises that are developing cutting-edge, high-profit, clean-tech products and systems for export to a vast and rapidly expanding global market. Powerful, timely, and necessary, *The New Entrepreneurs* offers a fresh and visionary approach to redesigning our current economic system, one that uses the powerful forces within capitalism to act as a catalyst for change and profit.
