

The MIDA Experience and Beyond

Over the past ten years IOMs experience in accompanying governments through programmes, initiatives, studies and numerous conferences concerning Migration for Development in Africa (MIDA) and similar initiatives in Latin America and the Caribbean, Asia and the Pacific have demonstrated that migration can bring significant benefits for social and economic development. In order to share the good practices and lessons learnt with a wider audience, such initiatives spanning across regions have been assessed in this study to enable their further development. The MIDA publication is hoped to provide a useful tool for governments and other stakeholders to build a more strategic and practical approach aimed at engaging diasporas and migrants in development efforts.
