

The Power Of Your Spoken Word: How To Get The Results You Want With Affirmations

This book includes 300 powerful affirmations for financial abundance, success and self-empowerment. This book gets right to the point by presenting powerful information that will clearly explain how you can harness the tremendous power of your spoken word to get the money, opportunities, success, or anything you want to manifest with the Law of Attraction. I have been studying the Law of Attraction for over two decades, and throughout the years I have manifested a number of wonderful things, including lottery prizes, financial prosperity, business success, relationships and romance. One important truth I have learned after many years of study is that your destiny lies in your words and in the way you use them. You can literally transform a situation through the right use of words, and you can even change the course of your life through the dynamic power of your spoken word. Many people fail to get what they want from the Law of Attraction because they don't have a clear understanding about affirmations and how to harness the power of the spoken word. As a result, this book will discuss: How your words shape your destiny The true power behind all affirmations How to write your own powerful affirmations that work How to make your affirmations more enjoyable What to do if you don't feel like your affirmations are true The best time to repeat your affirmations The importance of aligning to your affirmations in thought and action. In addition, this book contains a list of 300 powerful affirmations for financial abundance, success and self-empowerment. It also contains a Question and Answer section that has a lot of helpful information about affirmations and how to make the most of them. Some of the questions covered are: How long should my affirmations be? How important is it for me to write my own affirmations? How often should I repeat my affirmations

each day? What other technique can help me enhance the effectiveness of affirmations? What are declarations and how can I use them to create desired conditions? Is it necessary to memorize my affirmations? How can I use spoken blessings to enhance the quality of my life?

If you are serious about creating lasting change through the Law of Attraction, then you should commit to learning as much as you can about the tremendous power of your spoken word and how you can use your words to make your dreams come true. Your desires are waiting for you to summon them into your life with the dynamic power of your spoken word.
