

In addition to famine and disease, war had a considerable impact on rural society in early modern Europe. Myron Gutmann studies this impact through a systematic analysis of military, economic, and demographic variables as they affected the Basse-Meuse area in Eastern Belgium and the Netherlands between 1620 and 1750. Originally published in 1980. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These paperback editions preserve the original texts of these important books while presenting them in durable paperback editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
