

## About Canada: Childcare

Answering frequently asked questions about Early Childhood Education and Childcare (ECEC) in Canada, this accessible investigation seeks to establish proper standards for childcare programs, kindergartens, and nursery schools, thereby supporting the development of youth and accommodating parents who work or study. Questions covered include Why doesn't Canada have an ECEC system, even though other countries do? What is missing in Canada's ECEC landscape and why? and Is ECEC primarily a public good, a private family responsibility, or an opportunity for profit-making? Identifying this system as a political issue, this argument proposes that Canada requires an integrated system of services, stating that the absence of universal public funding is detrimental to the future of the country's families, women, and children. Additional topics discussed include an analysis of the history of ECEC, politics and policies, and suggested improvements for the future.
